

Displaced People are considered in two categories – INTERNAL where people find safety in their own country. EXTERNAL displaced people are actually, REFUGEES. These who are individuals that have found safety by crossing international borders. FORCED DISPLACEMENT –are those forced to move within or across borders because of some key factors which will cover shortly.

At the end of 2018 70.8 million people were forced from their home by conflict and persecution. That had risen, as we saw earlier to 80 million by June 2020. Amongst that number there are nearly 30 million refugees with half of those being under the age of 18.

Reasons for Displacement

As you are researching there are some key and basic indicators to consider:

The context the individuals were living in and how the context affected them, coupled with the affects, of the key indicators WHY, WHEN, WHERE, WHO, WHAT, WHERE & HOW

Top 10 Tips for Researching Displaced People

- 1. Write out what you actually know of your individual and family and do the same with what you do not know, sometimes the items missing are the most interesting.
- 2. Obtain a map of the area and identify the areas relevant to your people
- 3. What was the context of their lives? Were they experiencing persecution? Fleeing war, Set the foundations to give your research substance.
- 4. Focus on key factors that likely have not changed places of origin, surname? Does it provide opportunities to explore further?
- 5. Foreign surnames are often corrupted people wrote what they heard. If you cannot read or write you likely do not know how to spell your surname and therefore cannot correct mistakes. Accents can impact the writing of surnames. Where is the surname to be found? Visit www.forebears.io and see how the surname is distributed across the world
- 6. Consider the border changes of towns and controlling powers did the border move?
- 7. Did religion impact your ancestor?
- 8. One excellent site is the Jewish Gen site, which does incorporate non-Jewish names. I came across three references of Orlando's for my One-Name Study who were Italian prisoners of war after 1943. They were held by the Germans in several of the camps and all three of them perished.
- 9. Focus global War is not a level playing field, people took opportunities as they presented themselves, as a way of achieving self-preservation. Some ended up in a totally different place to where they were from and where you might have expected them to be. So cast your research net far and wide
- 10. Depending on war, events etc obtain a broad history book for the country your family are from. Then you can gather more foundation material to aid your understanding of your people in their time and place.

Considerations for New Beginnings

Below are the elements that perhaps offer starting points for research, on the basis that the answers to those elements below do not change or change substantially.
